GOVERNMENT'S PROPOSED EXHIBIT LIST

The United States of America, by and through its attorney, the United States Attorney for the District of Columbia, hereby files its Proposed Exhibit List. Pursuant to Paragraph 10(k) of the Court's Standing Order in this case, the government is filing this proposed list of trial exhibits three business days in advance of trial. Government exhibits are marked numerically in a sequential order and organized within the numeric designations by subject matter. The list includes a brief description of the proposed exhibit and frequently references a corresponding Bates number that is keyed to discovery provided to the defense in this matter.

This proposed list of exhibits represents the large majority of exhibits the government may seek to introduce in its case-in-chief. The government seeks leave to add to this list should the need arise. Any additional exhibits have been previously provided to the defense in discovery, or will be provided if developed hereafter.
